

DESTRIER LLC

Nickelium Stable Coin

ABOUT DESTRIER LLC

- Destrier LLC is a company incorporated on the 21st of March 2024 under the Laws of the State of Colorado with address 1942 Broadway St., STE 314C, Boulder, CO 80302, US , Reg Number 20241316871.
- Its vision is to create stable coins based on the strategic metals of Nickel and Cobalt - the value of which is quoted by the London Metal Exchange - using the in-situ reserves from its mines in Greece and Brazil to create the necessary back up synthetic assets. These stable coins' value is further enhanced by digital and mathematical models based on the golden section number ($\varphi=1,618\dots$). The models and the study for the proof of reserves have been created by the collaboration of destrier labs with greek and german universities.

ABOUT NICKELIUM

- Nickelium is a stable coin based on Nickel
- Total current reserves is 160 thousand tonnes of Nickel
- Every token represents 100 grams of Nickel
- Total supply is 1.6 billion Nickelium tokens
- Nickelium starting price is USD 2,5 per token including USD 1 for crypto mining
- Initial market cap USD 4 billion
- After that Nickelium price follows the golden formula to enhance its value and volatility against the plain vanilla nickel

ABOUT THE PEOPLE

- Destrier is managed by two of its Co-Founders:
- Ioannis Laderos and Aristeidis Tzimas.
- Aristeidis Tzimas holds a Bachelor degree in Sports management from the St. Andrews University, NC, USA. He earned his soccer scholarship from playing football in the UK. He has launched two digital publication platforms in Greece, one specialised on financial news (<https://www.sofokleousin.gr>) and the other focusing on the shift of the car industry towards electricity (<https://carselectric.gr>). He has been active in his family real estate and green energy business. (<https://x.com/Aris92Tzimas/bio>)
- Ioannis Laderos holds an Engineer Degree from the department of Mechanical Engineering and Aeronautics from the University of Patras and a Master in Finance from the Imperial College Business School. He worked in London as a S&P shipbroker at ACM shipping and upon his return in Greece at 2008 he has been involved in various technological companies and new start up ventures.
